### **Summary of the Official Action**

The forgoing Amendment and Remarks that follow are responsive to the Office Action mailed February 8, 2005. In that Office Action, the Examiner objected to the drawings indicating that the source of fuel to the mixed conductor must be shown and that the specification should also be amended accordingly. The Examiner also indicated that the electric heater of Claim 3 must be shown or the feature canceled from the claims. Furthermore, the Examiner objected to Fig. 1 indicating that Fig. 1 does not show element 36 (H<sub>2</sub>) which can come from line 55 and from within 22.
